How Often?  Do you have a fear of dentistry? Yes No	
s there any other information that you think we should know?	

# The Oral Cancer Screening System

Dr. Johnson continually looks for advances to ensure that we are providing the optimum level of oral health care to our patients. We are concerned about oral cancer and look for it in every patient.

One American dies every hour from oral cancer. Late detection of oral cancer is the primary cause that both the incidence and mortality rates of oral cancer continue to increase. As with most cancer, age is the primary risk factor for oral cancer. Tobacco and alcohol use are the other major predisposing risk factors but more than 25% of oral cancer victims have no such lifestyle risk factors. Studies also suggest that human papillomavirus (HPV 16/18) plays a role in more than 20% of oral cancer cases.

Oral cancer risk by patient profile is as follows:

- Increase risk:
   Patients age 18-39
   Sexually active patients (HPV 16/18)
- High risk:
   Patients age 40 and older
   Tobacco users (ages 18-39, any type within 10 years)
- Highest risk:
   Patients age 40 and older with lifestyle risk factors (tobacco and/or alcohol use)

   Previous history of oral cancer

We recently incorporated Velscope oral cancer screening system into our oral screening standard of care. We find that using Velscope along with standard oral cancer examination improves the ability to identify suspicious areas at their earliest stages. Velscope is similar to proven early detection procedures for other cancers such as mammography, Pap smear, and PSA. Velscope is a simple and painless examination that gives the best chance to find an oral abnormality at the earliest possible stage. Early detection of pre-cancerous tissue can minimize or eliminate the potentially disfiguring effects of oral cancer and possibly save your life. Dr. Johnson recommends that this exam be done once a year, therefore the Velscope oral cancer exam will be offered to you annually.

This enhanced examination is recognized by the American Dental Association procedure code D0431. The fee for this enhanced examination is \$25.00. Please circle one of the following.

YES	I would prefer to have the Velscope oral cancer screening e	xam at this time
NO	I would prefer not to have the Velscope oral cancer screening	ng exam at this time

# CONSENT FOR TREATMENT, PAYMENT AND PRACTICE OPERATIONS

Welcome to Johnson Dental, we are glad you have chosen our office as your provider and would like to provide you with the best possible dental care and service. To better help you become familiar with our office; we would like to address areas we feel are most important.

- I give this practice my consent to use or disclose my protected health information to carry out my treatment and to obtain payment from insurance companies.
- 2) I have been informed that I may review the practice's NOTICE OF PRIVACY PRACTICES (for a more complete description of uses and disclosures) before signing consent.
- I understand that this practice has a right to change their privacy practices and that I may retain any revised notices at the practice.
- 4) I understand that I have the right to request a restriction of how my protected health information is used. However; I also understand that the practice is not required to agree to the request. If the practice agrees to my requested restrictions, they must follow the restriction (s).
- 5) I understand that I may revoke this consent at any time, by making a request in writing. Such a request will not apply to any information already used or disclosed prior to request.
- 6) Appointments. We take great pride in reserving your appointment in advance, and it is extremely important that you to keep your scheduled appointment. If an emergency arises, we ask that you give our office a 48hour notice to avoid a \$25.00 cancellation or no-show fee.
- 7) We are willing to provide patients with a copy of their x-rays and dental records but please be advised that there is a \$25.00 processing fee. We will always do our best to process your request within 3 business days.
- 8) Our hygiene department starts treating patients at the age of 2 years old, but we do not begin to do restorative work until the age of 8 years old, however, if your child does need restorative work, we will be glad to provide you with the name of a pediatric dentist.
- 9) Billing. It is our office policy that payment is expected at the time service is rendered. As a courtesy to you, we will bill your primary insurance company and accept their payments along with your co-payments at each appointment. However, the ultimate investment for services lies strictly with the patient. Any discrepancy between our estimation of your insurance benefits and the actual payments is between you and your insurance company, if the insurances company has not paid their portion within 30 days, we ask that the payment be made in full by the patient. We do accept ALL major credit cards; we also accept Care Credit as a payment option.
